A Disloyal Extravaganza

Every true-hearted loyalist in this community must rejoice in the knowledge of the fact that the meetingor meetings for there were three of them-on Saturday night proved so far as the attempt to excite the populace to treason and disloyalty went, a most thorough, complete, and ludicrous fizzle. The opposition to the traitorous schemes of McClure & Co., was fierce and determined, and the namp or loyalty never burned brighter than it does to-day in the colony. The proceedings were characterized by a total disregard of all order. The assemblage was called for a treasonable purpose-none other than to hold out to Her Majesty the threat of annexation to the United States, unless the dictates of McClure & Co., were submitted to. The intention of the promoters was to pack the building with their friends, but the loyalists were too numerous for the schemers. and outnumbered them so greatly that the first two meetings proved a tris umphant vindication of the loyalty of the colonists. At the third mee ing liberal form of government were desired: -which was commenced with C. B. Young as chairman, a 'cooked' resolu in the right way. Proper measures will, of course, be taken at once to counteract any possible influence that the resolutions-which will, doubtless, receive a severe rebuke from Her Majesty's Government-may have abroad. We cannot, however, but congratulate the people on the great victory they have won, Steps are being taken to form a Loyal League for the protection and preservation of British interests on the Pacific, so that a movement that was intended to be damaging to those very interests will really conserve and

LUDICROUS SCENES!

LOYALTY TRIUMPHANT! A serio-comico-tragico meeting took place in the Victoria Theatre on Saturday night, in pursuance of a call that appeared in an obscure print of Friday evening, the object of which was understood to be to consider the advisability of annexing these Colonics to the United States. The meeting was called for 7½ o'clock; but owing to a demand having been made by the agent for the owners of the premises for chicamen before the doors were opened, a tremendous crowd of people who had assembled in front did not gain admittance until nearly 8 o'clock. The rent having at last been paid, the crowd (which numbered fully six bundred persons) poured in and speedily filled the house. The meeting soon became impatient at seeing no one on the stand prepared to open the proceedings. The impatience was manifested by cat-calls, dog-barks, yells and ironical applause. Loud calls were made for Willis Bond to take the chair, but a most pressing invitation failed to induce that individual to present himself and the disorder continued until Mr. Hebbard suddenly popped out from the prompter's corner of the stage, and asked the meeting to appoint a Chairman. The meeting responded by callieg on 'Hebbard to take the chair himself; but that gentleman declined the honor, and vanished from sight almost as quickly as the had appeared. Catching sight of James Thorne, a beer-y-looking individual bawled out for him to take the chair. Nothing loth, Mr Thorne ascended the platform, and was on the point of "taking the chair," when his foot slipped on the stage and he 'took the floor instead—his feet assuming the perpendicular and his body a recumbert. present himself and the disorder continued a Chairman. The meeting responded by back into the crowd. Mr Watson tried to speak, but was howled down. The Chairman then read Mr Watson's amendment, which was "that this meeting do now dissolve with three cheers for the Queen." The amendment was carried amid the greatest enthesiasm and waving of hats—the loyal portion of the audience, which was largely in the majority, rising to its feet. A vote of thanks was awarded the Chairman, and a portion of the audience lett.

Mr McClure called for a new Chairman. Capt. Stamp was proposed, elected and the perpendicular and his body a recumbent position. The laughter which this little incident created having subsided and Mr Thome having regained his feet, Mr Leigh was called to the chair, waich he took without meeting with a mishap, after thanking the assemblage for the dubious honor conferred. The Chair called on the promoters

Willis Bond here advanced and said that never in his life had he had anything to do with se dirty a thing as this meeting bid fair to be. Another ludicrous scene here occurred on the stage. Mr. Thorne and Mr. Layzelle, got into a wordy argument, which ended in Mr. mingled with applause. Cries of "Downing treet," "delegate," "office hunter," ctc., re ounded through the house for some time T. good naturedly thrusting Mr. L. into a seat. Two or three bellicose individuals made a rush for the centre of the stage to assault persons standing there, but were held by their friends; an apple thrown from At last Mr McClure managed to say that he did not see the gentlemen present who were to move the resolutions or take the chair [Voice-They're afraid, d -- n tham, the trai the audience struck a man standing on th platform on the head, and bounding back took "F.F.D." on the nose and rolled at his feet. Men wild with excitement darted to the front of the stage, waved their arms and gesticulated fiercely, rolled their tors.] [Cheers] Mr McClure continued that no cue was satisfied with the condition of the country. The speaker here proceeded in his favorite style, to depreciate the reources of this Colony, and to predict that it six months half of the people in it would arms and gesticutated necestly rouse their eyes alarmingly, and having succeeded (to at least their own satisfaction) in demolishing any number of imaginary foes, rushed off again to return and renew the pantomime. The moment anything exciting took place, all these fine oratorical efforts were, of have fled. A "little yaller dorg" now nounted the stage and set up such a furious howl at the speaker, that the Chairman wa compelled to take 1 im (the dorg) on his kneed o quiet him. | Mr McClure continued tha ourse, lost to the meeting, not a word could he political privileges had been taken from pe heard ten inches distant from the speaker's the country. About 150 persons lingered, when a frightful looking specimen proposed three grouns for the Chronicle, which were given groads for the Chronicle, which were given with a hearty good will by the disloyalists who remained. A proposition was then made for another meeting, and a new chairman was called for. C. B. Young was chosen and took his seat, Mr. McClure then continued his harangue the burthen of which was annexation, and offered the fol-lowing which was received with groans and

EDITORS CLONIST & CHRONICLE.—The meeting held in the theatre on Saturday night, was got up by Mr Leonard McClure, with the ostensible object of obtaining the feeling of the people with regard to reciprocity with the United States, but in reality. proofly with the United States, but in reality, for the purpose of spreading his doctrine of annexation to that country. The editor of the Telegraph, I fear, is very hard up, and vainly seeks to bring his paper into notice by this clap-trap and bosh: Fenins, traitors and some few of the foreigners now living amongst us. I have no doubt, would like to see annexation; but we Englishmen don't want it, and won't have it. If the Fenians and Foreigners covet this country, let them come and take it; this is their only chance, Mr McClare having come out in his true colors, I trust that the people will remember that it is to him and his clique that we are indebted for the loss of our Representative Government, and the removal of our capital; he has politically been a curse to this country, and evil was the day when he came amongst us. UNION HOTEL, ESQUIMALT. - Mr John T. Howard, late the well known and popular proprietor of the Royal Cak Hotel, has purchased the Royal Hotel property and has refitted the same under the name of the Union Hotel. The Union is furnished with every convenience for the accommodation of guests, and attached is a large bowling alley and billiard room. That the bar will always be found furnished with the best wines and liquore, the well-established reputation is a sufficient guarantee. "John" invites his friends to call upon him to-day.

VERY LIKE A WHALE ?- When the Volunteers were crossing Esquimaft harbor, returning from Saturday's rifle match, a large black fish appeared partly above the water at some two or three hundred yards distance. A few rifle bullets was immediately fired at it, two of which, it is thought, took effect, and when about to bear down and finish him with a harmon, in the shape of a bayonet, he suddenly turned to sea, though showing evident signs of having been wounded. It caused a good deal of amusement amongst those in view of the affair.

ACCIDENT .- A young seaman named Kennedy belonging to the Sutlej, received a severe accident on Friday at the naval store yard at Esquimalt, losing the thumb and two fingers of one hand and having his face and head lacerated from the effects of a blast. Another of the men was also injured, but not so severely; it is feared that poor Kennedy will not survive. They were engaged rock blasting; it is laid with imperfect tools, and before they had time to leave after applying the fuse, the unfortunate explosion

ACCIDENT AT CLALLAM BAY .- On Saturday, two carpenters in the employ of the Phonix Coal Company, met with a narrow escape from death. They put to sea in a cance which upset in a tide-rip. They succeeded in holding on to the frail bark until Mr Agnesley, the Assistant Engineer of the mine, swam out with a line, which he made fast to the cance and she was hauled ashore. The men who thus escaped a watery grave are named Thomas Williams and Thomas Jones.

MECHANICS' INSTITUTE .- The debating and elocution class will commence its literary campaign this evening, at 8 o'clock. The programme embraces addresses from the Presidents of the Institute and debating class. and recitations, readings, &c, by members. The charms of music will also be invoked, and glees, solos, duetts, &c., will add to the evening's amusement. Admission free to members of the Institute. The presence of ladies will be hailed with welcome.

CRICKET .- A match between the players of H. M. Fleet and the Victoria Club will come off to morrow on Peatt's ground at Colwood: the Victoria team will comprise

Messrs. Barnett, Drake, Ellis, Green,
Howard, Howell, Layton, Richardson, Tye,
Wallace and Whittaker. An omnibus will
leave the Bee Hive Hotel at 9 a.m., sharp,
for the conveyance of the eleven.

Cooley then refused to start, but the judges ruled that if he did not run again the purse would belong to Butler. It was after dark, but the purse would belong to Butler. It was after dark, but the purse would belong to Butler. Colwood: the Victoria team will comprise

THANKS .- To Mr Turner, Wells. Fargo & Co's messenger, and Purser Norton, of the Active, for late papers.

OH !- The Telegraph announces that Govrnor Kennedy will probably get the governorship of South Australia, with a salary of £4000. Why, we thought the non-confidence resolutions of the Assembly had squelched His Excellency. In place of that, they appear to have contributed to his promotion What a weighty influence the Assembly must possess at home when their censure instead of blasting a man, actually raises him in the estimation of his superior officers.

BURNING OF A NEWSPAPER OFFICE.—The British Columbian newspaper office at New Westminster, was destroyed by fire on Saturday evening last. Everything was destroyed and the property-valued at \$4000-was un insured. The fire was undoubtedly the work of an incendiary. We are extremely sorry to learn of the misfortune that has befallen our cotemporaries and hope that the suspen sion of their paper will be only temporary.

now centres in the New York quarrel between Thurlow Weed and Raymond on one side, and the Albany Democratic Regercy on the other, Raymond charges that the Democratic leaders have shown bad faith towards the Philadelphia platform, and that they have repudiated it. The World and News howl at Raymond that they don't want him or his platform. Raymond retaliates that it was a fixed-up matter among the Democratic leaders three months ago, and virtually confesses he has been swindled. The mantle of Dean Richmond has fallen on John Morrissey. The Times says Hoffman was nominated by a trick, and is not their candidate. The Herald replies that the Democrats cast. 360,000 votes in New York, two years ago, and can do it again; and that they don't want bankrupt recruits, much less to make bankrupt recruits, much less to make bankrupt recruits the leaders of their column. Chicago, September 23—Gen Grant was invited to attend the Pittsburg Soldiers' Convention. Col Badeau, his Aide-de-Camp, replied that it is contrary to Gen Grant's habit and his convictions of duty to attend political meetings of any character whatsoever, and that he sees with regret the action of any officer of the army taking a conspicuous part in political dissussions of the day. Chicago, Sept. 23—The Chicago Priving Park was yesterday the scene of great excitement, ending in a melancholy tragedy. Ottawa correspondence of the New York Herald represents that discontent had been manifested by the military in consequence of being unsufficiently provided for field service; but the Government had allayed all cause of complaint, and order and contentment was restored.

General Michel and a board of officers had decided upon arming the troops with a breach-loader, and contracts would be immediately made for a large number of these

weapons.

Medical.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burse out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impare air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending 'from parents to children unto the third and fourth generation;' indeed, it seems to be the rod of Ilim who says, 'I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous constitutions not only suffer from scrofulous constitutions not only suffer form scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this tain in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Scrofula, or King's Evil,

Compound Extract of Sarsaparilla, the most effectual remety which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only serofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTIONY'S FIRE, ROSE, or ERY-SIPELAS, PLANDES, PUSTULES, BLOTCHES, BLAISS and BOILS, TUMORS, TETTER, and SALT RIBEUM, SCALD HEAD, RINGWORM, RIBEUMATISM, SYPHILLTIC and MERCURIAL DISEASES, DROSE, DYSEPSIA, DEBILITY, and, indeed, ALL COMPLAIN'S ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausca, Indipstion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Apatile, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.
